

**SORSI MID-YEAR Research & Education Symposium
Chiropractic, Proprioception and Vestibular Function:
Research & Therapeutic Strategies
April 27-29, 2012**

Friday April 27, 2012	Tract #1	Tract #2
1:00 PM – 3:00 PM	Proprioception – The Neuro Physiological Basis of Sacro Occipital Technic Diagnostic Analysis O. Nelson DeCamp DC, FICS	New Cranial Techniques for the Treatment of Proprioceptive/ Vestibular Dysfunction and Pain Jacque Roberts DC, CC
3:00 – 3:30 PM	BREAK	
3:30 PM – 5:30 PM	Proprioception – The Neuro Physiological Basis of Sacro Occipital Technic Diagnostic Analysis (continued) O. Nelson DeCamp DC, FICS	New Cranial Techniques for the Treatment of Proprioceptive Vestibular Dysfunction and Pain (continued) Jacque Roberts DC, CC
5:30 PM – 8:00 PM	Cocktails & Membership Meeting Including SORSI Research Proceedings Stephane Provencher DC	

Saturday, April 28, 2012	Tract #1	Tract #2
8:00 AM – 10:00 AM	Dorsal Column Lesions – Balance & Position Sense of Feet vs.Cerebellar Problems Marc Pick DC, FICS	Proprioceptive and Vestibular Dysfunction and Its Relationship to Chiropractic Therapies Daniel J Madock DC, DICS
10:00 AM – 12:00 PM	Dorsal Column Lesions - Balance & Position Sense of Feet vs.Cerebellar Problems (continued) Marc Pick DC, FICS	Proprioceptive and Vestibular Dysfunction and Its Relationship to Chiropractic Therapies (continued) Daniel J Madock DC, DICS
12:00 – 1:30 PM	Lunch	
1:30 PM – 3:30 PM	Clinical Applications of Technologies Addressing the Pelvis And Lower Extremities in Relationship to Proprioceptive and Vestibular Function John Farmer DC, FICS	Rehabilitation of Proprioceptive and Vestibular Dysfunctions Daniel J Madock DC, DICS
3:30 PM -- 5:30 PM	Clinical Applications of Technologies Addressing the Pelvis And Lower Extremities in Relationship to Proprioceptive and Vestibular Function (continued) John Farmer DC, FICS	Therapeutic Strategies and Outcomes in Two Cases of Stroke Using SOT™ Methods Of Chiropractic and Chiropractic Craniopathy Kim Shara DC, DICS
5:30 – 7:30 PM	Diagnosis and Treatment Of Benign Postural Vertigo Joseph Unger DC, FICS	

Sunday, April 29, 2012	Tract #1 & #2
8:00 AM – 10:00 AM	Survey of Pertinent Current Scientific Literature As Related to Vestibular and Proprioceptive Dysfunction Stéphane Provencher DC
10:00 AM – 12:00 PM	The Instructor's Panel: Review of Sessions Moderator: Joseph Unger DC, FICS

PLEASE BRING PORTABLE ADJUSTING TABLES
